FLAGSTAFF, WA. DRILL PROGRAM COMPLETED

KEX2009-26

Kent Exploration Inc. (the "Company") reports that the approximately 1,300 foot diamond drill program, under the direction of Dr. Clay Conway, Ph.D., P.Geol, on its 100% optioned Flagstaff property in north-east Washington state, has been completed. Upon completion of core logging and splitting, the split samples are to be submitted to Inspectorate IPL labs of Richmond, BC for assay.

Kent Exploration Inc is a junior exploration company that has executed an Agreement with Teck Australia to enter into an Option Agreement to earn 100% of Teck's interest in Chalice Gold Mines Limited's Gnaweeda Gold Project in West Australia and has acquired the Alexander River, Paparoa and Lyell gold projects in the highly prolific Reefton gold field in New Zealand.

The Company has an option to earn a 100% interest in the Silver Hills property, a silver/ lead/ zinc prospect in south-eastern British Columbia, and has a 100% interest in the Courtney Lake property, a silver/ lead/ zinc prospect in north-east Saskatchewan. The Company has a 100% interest in Coal Prospecting Permits covering approximately 92,000 ha in east-central Saskatchewan, a 100% interest in a mining lease option on the Flagstaff Mountain property, a gold/silver/zinc/barite prospect in eastern Washington state, a 100% interest in the mining lease option on the Ivanhoe Creek property, a Midas-style gold/silver target in Nevada's Carlin Trend, and 50% of a 100% interest in the Ivanhoe Creek placer claims covering a bentonite deposit.

This News Release has been prepared on behalf of the Kent Exploration Inc. Board of Directors, which accepts full responsibility for its contents.

ON BEHALF OF THE BOARD

"Graeme O'Neill"

Graeme O'Neill, President
